## **DETAILED ACTION**

### **Responses to Amendment**

The application's amendments filed on 7/5/2005 have been considered and entered.

### ***Specification***

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Allowable Subject Matter***

Claims 1-20 are allowable.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to teach or suggest the claimed method digital conversion comprising, among other limitations, a novel and unobvious limitation of "wherein the digital processing portion operates in accordance with at least one system clock having a corresponding system clock rate; and wherein the at least one corresponding system clock rate is independent of the input sample rate." structurally and functionally interconnected with other limitations in the manner as cited in claims 2-14 and 16-17).

Claim 15 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to teach or suggest the claimed method digital data conversion comprising, among other limitations, a novel and
